

Intern Software Engineer Frontend

Your role:

Collaboration with cross-functional teams and contribute to the design and development of user-friendly interfaces. Work on the implementation of responsive and intuitive user interfaces using modern frontend technologies, with a focus on React. Work closely with backend developers to integrate frontend components with the backend. Collaborate in an Agile environment, participating in various routines and Agile ceremonies.

What we need:

- Strong interest in frontend development and a desire to learn and grow in the field.
- Familiarity with HTML, CSS, and JavaScript. Experience with React is highly preferred.
- Basic understanding of cloud technologies and virtualization tools like Docker.
- Basic usage of version control systems, particularly Git.
- Ability to write simple tests to ensure code quality and maintainability.
- Good problem-solving skills and attention to detail.
- Effective communication skills and the ability to work collaboratively in a team environment.

What you will get:

- Exposure to cutting-edge technologies and industry best practices.
- Mentorship from experienced developers.
- Opportunities for professional development and career advancement.
- Networking opportunities within the industry.
