Supervisor assessment of Bachelor's Thesis

Student: Fujaček Martin

Title: JSON Schema Maker (id 22247)

Supervisor: Smrčka Aleš, Ing., Ph.D., DITS FIT BUT

1. Assignment comments
The goal of the bachelor's thesis was to make a web-based application which would help software developers to build JSON schema. The goal has been fulfilled.

2. Literature usage
The student followed my recommendation with selecting the study materials.

3. Assignment activity, consultation, communication
The student has been proactive the whole academic year. He participated in the meetings in a regular basis.

4. Assignment finalisation
The technical report has been finished in advance. I had an opportunity to make comments for the final version.

5. Publications, awards

6. Total assessment   **excellent (A)**
The student accepted his role very well, he was very active, and reached the solution which will be publicly available online.
